Seeking a position in the website design field where a record of success in all previous positions as well as applicable experience and education will be of value

## EXPERIENCE

### Web Designer

November 2011 to Present

DH WEB Inc, Hagerstown, Maryland

- Design and create new websites that are custom tailored to meet the individual client's needs
- Develop graphic designs using Adobe Photoshop and Adobe Illustrator to effectively communicate the ideas being promoted by the client's business and website
- Provide redesign services using Adobe Photoshop and Adobe Dreamweaver to cut up the website layout and applying new code to the website
- Develop and apply dynamic elements to existing sites to create more visual interest and appeal
- Maintain existing sites by making changes to design, content and functionality based on the client's requests
- Consult with clients in order to define the client's expectations for their website's look, feel and purpose

### Web Design Internship

August 2011 to November 2012

DH WEB Inc, Hagerstown, Maryland

- Interned as a Web Designer for a website design company that provides web services a local and national client base
- Designed website layouts, logos, graphic designs and print adds
- Presented potential client designs to management and redesigned based on feedback from the client
- Attended Client consultations and assisted with defining the client's expectations for their website's look, feel and purpose
